- Archicad
- Basic HTML, CSS, Javascript

EXPERIENCE

REAL ESTATE ASSOCIATE

Jones Lang LaSalle Property Consultants | Aug 2021 - Present

- This is a part of JLL's Early Careers Program - currently attached to Account Management at Google Asia Pacific, Singapore

Regional Program Management

- Supported regional roll-outs such as RTO across APAC
- Created internal marketing & branding materials using Google slides, sites, gmail templates, genial.ly and Canva
- Collated data for client reporting across multiple teams (Vendor and Procurement Management, Occupancy Planning, Operational Data, PMO)
- Supported implementation of Smartsheet in PMO and Occupancy Planning teams
- Upcoming rotations in Sustainability and Technical Services

RESEARCH ASSISTANT

National University of Singapore | May - Jul 2020

- Researched on the application of IoT/Computer Vision to improve construction management

Conducted a holistic review on technology adoption for tracking precast construction components

- Established a representative workflow of the precast process locally
- Identified benefits of technology-enabled precast tracking
- Identified barriers to technology implementation
- Established a ranked evaluative criteria for technology selection

MARKETING COMMUNICATIONS INTERN

CapitaLand | May - Aug 2019

- Created an advertising kit for ad spaces to generate mall revenue
- Designed attractive content for media wall panels, digital panels, and website to strengthen the brand positioning and identity
- Collaborated with internal and external parties to manage marketing assets to enhance mall image and increase footfall
- Maintained relationships with tenants through effective communication and distribution of information
- Reviewed signages and facilities operations to ensure a cohesive customer experience, and drive shopper traffic
